(a) to (c) : Yes Sir, the construction works of Sea Water Reverse Osmosis Plant (SWRO II WITH LLPH Facilities) in the State of Andhra Pradesh is under progress. The present progress of the project is 76%. The delay in completion of the project is due to COVID-19 pandemic, site related issues and slow progress by the executing agency. There is a continuous engagement by Project Management Consultant (PMC) (M/s Engineers India Limited (EIL)) with the management of the executing agency for supply of balance material and deployment of additional resources to complete the project early.
